

How to apply

How to search and apply by keyword, job title, location or requisition number

- Go to iuhealth.org/careers
- Enter Keyword or ZIP code
- Select “Find Jobs”
- Select job title to view job description
- Select “Apply Now” on left-hand side to apply

Our hiring process

Apply

Find a position that interests you and apply. Once you've applied, your application will be sent to a member of our Talent Acquisition team. We review all applications submitted. Qualified candidates may be contacted by a Talent Acquisition consultant or hiring leader to participate in a phone interview.

Interview

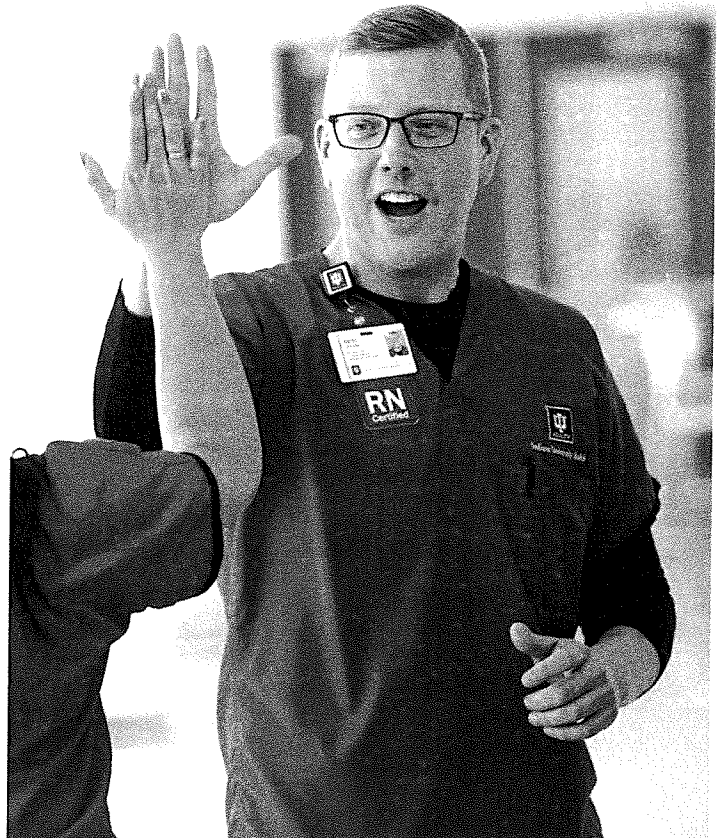

After a phone interview or resume review by a hiring leader, a member of the IU Health team will reach out to identify time for a virtual interview. The hiring leader you are interviewing with will take you on a virtual tour of the facility or will send you a video to help you learn more about the team and facility and get to know potential team members you'd be working with.

Offer

If selected for an employment offer, you may be asked to provide references. All candidates must complete a health and drug screen and submit a background check release. While these pre-employment checks are being completed, candidates will receive a detailed offer letter overviewing benefits, compensation and virtual orientation information.

Welcome

Once you accept this offer, you are on your way to being part of the IU Health team. Your manager will work directly with you to ensure you have the tools to be successful in your new role. For most new team members, day one begins with virtual new team member orientation.

Indiana University Health
